

A slide titled "CLOUD NATIVE Landscape" featuring a QR code linking to l.cncf.io, the Cloud Native Computing Foundation logo, and logos for Redpoint and Amplify Partners.

The image is a collage of numerous logos from various companies, likely members of the Cloud Native Computing Foundation (CNCF). The logos are arranged in several distinct sections: a top banner with large logos for Amazon, Intel, and ZTE; a middle section with logos for Microsoft, Oracle, SAP, and VMware; a large grid of logos in the center; and a sidebar on the right containing logos for automotive, financial services, healthcare, retail, and logistics industries. A QR code is located at the bottom left, and a call-to-action at the bottom right encourages users to join the CNCF.
